Subject: Don't deny contraceptive coverage to any woman!
Date: Saturday, September 24, 2011 2:45:59 AM

Preventive care keeps women healthy! Requiring insurers to cover preventive health care like contraception, breast feeding support and screening for domestic violence and HIV -- without charging co-pays -- makes these services affordable for more women. And it helps women stay healthy.

No one should have the power to negatively impact a person's personal health care and family planning choices. Employers especially should not be able to deny a woman this coverage, forcing her to choose between employment and control over her own health care. Medical experts agree that this preventive health care is necessary for all women and that contraception is preventive care. Religious employers should not be given the power to leave contraceptive coverage out of their insurance plans because it will exclude some women from getting the care they need to be healthy, have healthy pregnancies and have healthy babies. Let a woman make her own decision – she knows her body and beliefs better than her bosses do!

Please remove the proposed religious employer refusal provision from your Women's Preventive Services rule.
